Discover our Customizable SPA Solutions

Puzzled by options that don't meet your needs? Eii's SPA solutions give you the pieces for a perfect fit.

SPA Solutions that Grow with You

Engineering Innovation's trio of SPA: Scan, Print, and Apply solutions grow with you. Whether you are a start-up processing 50 parcels a day or a large corporation processing thousands of parcels per hour, we have a solution designed for you!

The EZ-Station, EZ- WorkDesk, and Chameleon Solutions™ were designed with affordability in mind! Your investment in quality processing systems will not be thrown away. Each SPA solution can be used with the others as you continue to grow. This eliminates the need to constantly purchase new equipment, just because your business is processing more parcels! Let us help you find the right solution today!

EZ-Station

The EZ-Station is the industry's lowest cost parcel processing solution. Designed for low-volume, start-ups, the EZ-Station consists of a desktop processing system. The entry-level SPA solution provides the perfect start for all companies, and allows you to grow at your own pace!

Features:

- Stand-alone computer processing system
- Desktop scale
- Barcode reading and OCR compatible
- All package types are supported

EZ-WorkDesk

Has your company recently experienced a BOOM in shipping business? Check out the EZ-WorkDesk, designed for mid-level volumes. The EZ-WorkDesk is a hardware platform that enables the application of technology, software, and hardware to your workflow.

Features:

- OCR (optical character reading) technology enables text capture
- Wide Area Barcode Reader encompasses a wide range of barcode types including 2D
- Leverage RFID for high security applications
- Dimensioning captures data for dimensional weight pricing and space management
- Software interfaces package data with business logic for labeling, routing, and customer billing
- Plug and play printer options for single and duplex label printing
- Multiple package types are supported: Polybags, Ravioli Packs, Bubble Wrap, Flat, and more

Chameleon Solutions™

We get it. You need to run A LOT of parcels. Chameleon Solutions™ was designed to make your life easier. This automatic SPA solution can be configured to run 1,000 to 20,000 pieces per hour, perfect for high volumes.

Features:

- Ideal for Outbound Processing, Data Capture, Parcel Induct, and Logistics companies
- Available weighing, dimensioning, and OCR and barcode reading
- OCR reads the address for manifesting, barcoding, tracking, and proof of processing
- Flexibility to capture address block, barcodes, dimensions, and weights
- Scale detects parcel weights from one oz to 100 lbs
- Handles packages as large as 25" x 25" x 37" (larger available on request)
- Speed ranges from 1,000 to 20,000 parcels an hour
- Interfaces with OMS, WMS, and other business systems
- Outputs a unique mailing label featuring postal barcode, unique piece ID, proprietary sorting/routing codes, and other business information

EZ-Station

EZ-WorkDesk

Chameleon

Capture

Capture information from the physical package.

Decide

Communicate captured information with your data systems and business rules.

Act

Execute decisions made in your business logic.
